Newslater of Community Advancement Organization 2023

During this period, CAO provided technical training to a total of <u>1,516</u> beneficiaries on various topics, including rice and vegetable planting (30 courses with 335 beneficiaries), pig and chicken raising (37 courses with 499 beneficiaries), health care (21 courses with 238 beneficiaries), and gender equality (18 courses with 444 beneficiaries).

CAO also implemented models for sustainable agriculture, including natural compost made from animal waste, watersaving irrigation systems, modern seeds, and net houses for vegetables. These models helped ensure food security for the local market.

As of now, <u>151</u> families have benefited from the animal bank program, including 71 families who benefited from the cow bank, 37 families who benefited from the pig bank, and 43 families who benefited from the chicken bank.

Lastly, CAO introduced vaccines for chickens and pigs to farmers, vaccinating a total of $\underline{10,977}$ chickens and $\underline{1,234}$ piglets in 2023.

In addition, CAO supported 180 poor rural students in 2023, including 100 primary school students who received bikes, and 80 secondary school students who received \$35 each. Moreover, the CAO increased the availability of reading books in three village libraries and provided personal case support to one student per month through individual donors.

Moreover, the CAO participated in environmental care by organized the event to plant $\underline{612}$ trees at the pagodas and cooperating with NBP to promote the installation of $\underline{17}$ biogases with a contribution of \$95 per set.

In 2023, CAO provided direct assistance to <u>446</u> loans cycle (301 families), 220 cycles who received revolving funds for rice cultivation, 157 cycles who received revolving funds for livestock, and 69 families who received revolving funds for small businesses. Furthermore, an additional 131 families benefited from the saving group program.
